

Team members workload percentage (approx.):

1. Javier González Barreda: 33%
2. Pablo Juan Ferrer: 33%
3. Vicent Santamarta Martinez: 33%

1. Dataset Preparation and Fine-Tuning:

- Pablo: Finding and analyzing the training datasets.
- Vicent: Led data cleaning and preparation.
- Javier: Managed fine-tuning process.

2. Scraper Development:

- Vicent: Designed scraper structure.
- Javier and Pablo: Implemented scraper code.

3. Scraping and Data Selection:

- Vicent: Focused on scraping from specific subreddits.
- Pablo: Handled scraping from additional subreddits.
- Javier: Managed data selection and filtering.

4. Classification and Evaluation:

- Pablo: Led predictions using the model.
- Vicent: Analyzed prediction results.
- Javier: Collaborated on overall model evaluation.

5. Slide Design and Presentation Preparation:

- Pablo: Developed slides on project objectives and structure.
- Javier: Created slides on model development and training.
- Vicent: Evaluation of the model and results.
